

HELMDON PARISH COUNCIL PUBLICATION SCHEME

The Freedom of Information Act 2000 provides public access to recorded information¹ held by Parish Councils. It does this in two ways:

- Parish Councils are obliged to publish certain information about their activities;
- members of the public are entitled to request information from Parish Councils.

The Act does not give people access to their own personal data (information about themselves) such as their health records or credit reference file. If a member of the public wants to see information that a public authority holds about them, they should make a subject access request under the Data Protection Act 1998.

This document details the information that the Information Commissioner's Office (ICO) expect Parish Councils to provide in order to meet their commitments under the model publication scheme. The ICO expects Parish Councils to make the information in this definition document available unless:

- it does not hold the information;
- the information is exempt under one of the FOIA exemptions or Environmental Information Regulations exceptions, or its release is prohibited by another statute;
- the information is readily and publicly available from an external website; such information may have been provided by the public authority or on its behalf. The authority must provide a direct link to that information;
- the information is archived, out of date or otherwise inaccessible; or,
- it would be impractical or resource-intensive to prepare the material for routine release.

Publishing datasets for re-use

Public authorities must publish under their publication scheme any dataset they hold that has been requested, together with any updated versions, unless they are satisfied that it is not appropriate to do so. So far as reasonably practicable, they must publish it in an electronic form that is capable of re-use.

If the dataset or any part of it is a relevant copyright work and the public authority is the only owner, the public authority must make it available for re-use under the terms of a specified licence. Datasets in which the Crown owns the copyright or the database rights are not relevant copyright works. The Datasets Code of Practice recommends that public authorities make datasets available for re-use under the [Open Government Licence](#).

The term 'dataset' is defined in section 11(5) of FOIA. The terms 'relevant copyright work' and 'specified licence' are defined in section 19(8) of FOIA. The ICO has published [guidance](#) on the dataset provisions in FOIA. This explains what is meant by "not appropriate" and "capable of re-use".

¹ Recorded information includes printed documents, computer files, letters, emails, photographs, and sound or video recordings. HPC Publication Scheme

Information not included in this publication scheme

If the information you require is not already published by the Council then you are entitled to request the information. Send your written request to the Clerk, including your name, address for correspondence, and a description of the information you require.

The Parish Council can refuse a request if:

- It would cost too much or take too much staff time to deal with the request.
- The request is vexatious.
- The request repeats a previous request from the same person.
- It falls within the number of exemptions defined in the FOI Act.
